1981-04-10.

attn.: mr. ben lexcen and mr. warren jones

subject : tank testing for 12 metre

your ref.: bcs 429  
our ref.: pr 04359/m 5854

---

our most recent planning of the model test programme reveals that the first tests will commence on may 1, 1981. do you still want to arrive in holland on april 18, 1981? perhaps april 25, 1981 is a more preferable date since there is not a lot we can do until the results of the first set of tests are available. please advise. i have written a letter to warren concerning the financial arrangements he raises in his letter dated april 1, 1981.

best regards/peter van oossanen
