Subject: Final lines drawing of final 12M design on a 1 to 10 scale
----- Our reference: P44359 -----

Dear Ben,

We are sending you enclosed 2 tracings on plastic and 2 prints
of the final 1 to 10 lines drawing of "Australia" 1983.
(Drawing No. 5854-32).

Please note that the final 9.5 ft waterline is 15.233 m and not
15.333 m.

Also the rudder stock has been moved aft 7 cm, in accordance
with the displacement to the measured waterline.

One or two of the waterlines have been slightly changed with res-
pect to the drawings we sent you earlier.

Sincerely yours,
NETHERLANDS SHIP MODEL BASIN

Dr Peter van Oossanen
