subject tests are to be carried out friday, july 3. will
telex results on monday, july 6, 1981. wetted surface
of keel five is still 5 percent higher than keel one.
we are drawing new aft-body-rudder configuration for
your consideration. will send drawing early next week.

n.a.c.a. series aerofolils book is entitled:
'theory of wing sections', published by dover,
authors are abbot and von doenhoff.

we hope you recovered from our climate, etc., and travel
back to sydney.

best regards/peter van oossanen
