Dear Peter,

I have just arrived back at work today and am anxiously awaiting a copy of your final test results. I have spoken to Ben Lexcen who had received an indication from you of the success of the final test, and I am delighted to learn that the low wind range performance is now competitive with our 1980 configuration without taking into consideration the added benefits of manoeuvrability and the additional sail area we will gain.

Peter, thank you for receiving Alan, John and myself. We were delighted with the trip and they certainly left your premises enthusiastic about the approach which had been adopted. Enclosed are the only two copies we have of the 1980 America's Cup film. Would you please ensure that immediately you have played them you return them to me, as I am responsible for their safekeeping.

*By Dickman
for replicating
(some thing
of door ons appeal -
bare video tape)*

I look forward to seeing you when you come to Australia.

Kind regards,

WARREN JONES.

Encs.
